DETAILED ACTION

Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 22-24 are allowed for the reasons indicated in the previous Office Action (mail date 17 July 2006).

Claims 1, 11, and 21 have been amended herein to include the limitation that a speech signal and an endpoint signal are provided to "a speech recognition application to facilitate subsequent speech recognition of the speech signal". In Nitta et al. a speech signal (Cmij) and endpoint signal (F1, B1, F2, B2) are provided to a pattern match detector. The pattern match detector calculates a similarity measurement $S(k)$ which is then provided to a discriminator to perform recognition. Therefore, the "speech recognition application" disclosed by Nitta et al. (i.e. the discriminator) is not provided the speech signal and endpoint signal, but rather a plurality of similarity measurements.

Thus, Nitta et al. do not disclose or suggest, "providing the endpoint signal and the speech signal to a speech recognition application to facilitate subsequent speech recognition processing", as required by independent claims 1, 11, and 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
